How has SPORT taught you the importance of goal setting in your life?

Sports have taught me that both short term and long-term goals are crucial for success. Striking a balance between these two yields optimal results in both sports and daily life.

When have you used your personal CONFIDENCE that you developed through sport to help you in a situation in school or in life?

Golf is a game of confidence and my experiences on the course has enabled me to confront situations such as public speaking and interviews with a result that likely would be absent if I had not gotten into the game.

What do you hope to GAIN during your internship this summer?

I hope to gain a wealth of experience that will enhance the overall quality of my life. Additionally, I hope to forge personal and professional relationships that will aid me in future endeavors.
