

Trey Kelleher

James Madison University | Sports Management Major

How has SPORT taught you the importance of goal setting in your life?

Sport has taught me that goal setting helps you accomplish tasks and helps you become more organized and driven.

When have you used your personal CONFIDENCE that you developed through sport to help you in a situation in school or in life?

Gaining confidence through practice in every sport I have played has helped me through situations at school and served as a reminder that knowledge and skill does not come naturally; you have to practice and study to get the end result you want.

What do you hope to GAIN during your internship this summer?

I hope to gain knowledge and experience in the area of sport management.
